## **vacancy for a VOICER (fulltime)**

For more than 100 years Flentrop Orgelbouw is building and restoring pipe organs in churches, concert halls and for private persons worldwide.

At the moment we are seeking to recruit a fulltime voicer (m/f) who is familiar with organ music and organ literature. We consider it of great importance that our voicers play the organ at a high level, in order to understand completely the use of the instrument. A study at a Conservatory is therefore required.

As one of our employees in the maintenance and voicing workshop of our company will retire shortly, and - secondly - as a result of the rearrangement of activities after the recent change in the board of directors, we are seeking a talented new employee, who is able to combine the passion for tone with a thorough technical background (engineering), preferably also at an academic level. These technical qualities will be applied both for the organs we maintain and for developing specific applications.

Flentrop Orgelbouw offers an enthusiastic group of colleagues, who are devoted to building and maintaining music instruments at a top level. At the moment Flentrop is holding some very prestigious orders in stock, among others the Katharinenkirche in Hamburg.

The company language is Dutch, however, sufficient knowledge of English and German is needed to work abroad independently. As we are active worldwide, international working or trainee experience in an organ building company for a minimum of at least one year is required.

Extended information about our company can be found elsewhere on this website.

Application and resume's can be sent to Flentrop Orgelbouw B.V. FAO Mr Erik Winkel, Westzijde 57, 1506 EC, Zaandam or by e-mail [info@flentrop.nl](mailto:info@flentrop.nl) preferably within 2 weeks.

For additional information you can contact Erik Winkel by e-mail at [info@flentrop.nl](mailto:info@flentrop.nl)

A practise examination can be part of the procedure.

Date of issue: Thursday 5 November 2009.
